

Jennifer Daley MPH, RN-BSN

Family Nurse Practitioner Applicant

Professional Profile

A nursing career dedicated to long-term care, rehabilitation, and hospice populations, with extensive experience supporting patients and families across the lifespan and a wide range of conditions. Skilled in delivering health education, evaluating care plans and interventions, and making appropriate adjustments to optimize outcomes. Proven ability to foster teamwork and interdisciplinary collaboration, contribute to staffing solutions, mentor nursing students, and support the training and development of newly hired nurses.

Employment

Graduate Assistantship

Department of Public Health, Brody School of Medicine, East Carolina University, Greenville, North Carolina I 08/2010 - 05/2011

During the fall of 2010, I worked on a research project, "Physical Activity Behavior Disparity between Rural and Urban Adolescent Youth" that looked at weight in elementary school children in relation to their level of physical activity and geographical profile.

During the spring of 2011, I worked on a research project, "Prevalence and Follow-up of Abnormal Pap Smears in a Rural Population" that looked at Pap smear results and follow-up procedures in rural eastern North Carolina.

Student Intern

Community Health Programs at Vidant Medical Center, Greenville, North Carolina | 02/2012 - 04/2012

I developed and compiled information for a Women's Heart Health Resource Directory which provided information on physical activity, nutrition, cardiovascular education, diabetes support, and tobacco cessation resources that were available in Pitt County, NC and online. February 2012-April 2012

Certified Nursing Assistant

North Shore Health and Rehab Center, Columbine Health Systems, Loveland, Colorado | 5/2015 - 08/2016

Provided CNA care to long-term residents and rehab patients.

Registered Nurse

Good Samaritan Society – Bonell Community, Greeley, Colorado | 03/2018 - 12/2021

Provided nursing care to long-term residents, rehab patients, and hospice patients.
